VISION®

Your Guide to Blepharoplasty
and a *Brighter Tomorrow*

WELCOME TO OCL VISION

At OCL Vision, we are committed to providing exceptional surgical care and lasting peace of mind with our range of advanced treatments. Whether you are considering advanced oculoplastic procedures to rejuvenate your appearance, such as eyelid surgery (blepharoplasty) or brow lifts, or require specialised solutions for medical conditions like droopy eyelids (ptosis), eyelid malpositions, or tear drainage issues, we provide tailored treatments designed to meet your unique needs with precision and care. We also recognise the importance of **making our treatments accessible to all**, which is why we provide flexible payment plans to suit your circumstances. We believe that financial considerations should never be a barrier to achieving clearer vision.

Our clinic was born from a collaboration between world-renowned, UK-trained eye surgeons, merging their successful practices to harness a wealth of resources. This fusion has enabled us to deliver **unparalleled surgical expertise alongside the latest technological innovations**. In 2024 we won the Laing Buisson Healthcare Award in the category of best healthcare

outcomes in the UK. When choosing a surgeon for eye surgery, the key is to find someone who puts your needs first, blending exceptional skill and dedication with a commitment to cutting-edge eye care advancements.

Our team comprises of leading surgeons known for their surgical excellence and compassionate approach to patient care. With comprehensive training in the UK and globally, specialising in oculoplastic, cornea, cataract, and refractive surgery, our surgeons ensure you're in the safest possible hands, with a track record of over 75,000 successful procedures.

We consistently ensure you are fully informed about the treatments best suited to you, clearly explaining the nature of the surgery, its expected outcomes, and the entire treatment process. Throughout your journey, we provide reassurance and tailor our approach to meet your specific needs and achieve your vision goals.

Choosing OCL Vision means entrusting your care to experts who truly prioritise your well-being, backed by a strong commitment to your long-term satisfaction with flexible payment options to ensure that our first-class eye care solutions are within reach for you.

About the SURGERY

BLEPHAROPLASTY

Following your detailed consultation and specialist assessment with us at OCL Vision, we are pleased to confirm that blepharoplasty is the most suitable treatment to address your concerns.

Blepharoplasty, or eyelid surgery, effectively reduces puffiness, sagging skin, or under-eye bags, **rejuvenating your appearance and restoring a more youthful and refreshed look.**

Watch our video

By addressing these common signs of ageing or fatigue, blepharoplasty can enhance both your confidence and quality of life.

At OCL Vision, our experienced team is committed to delivering personalised care, ensuring your procedure is tailored to your unique needs and aesthetic goals.

With a focus on precision, safety, and natural-looking results, **you can trust us** to support you in taking the next step towards achieving your desired outcome.

Blepharoplasty, commonly referred to as eyelid surgery, is a specialised procedure designed to address cosmetic and functional concerns of the eyelids.

It offers the potential to rejuvenate the appearance of the eyes, improve vision obstructed by drooping eyelids, and restore confidence for those affected by these issues.

During the procedure, the surgeon carefully removes excess skin, muscle, and, where necessary, fat from the upper or lower eyelids. Where appropriate, fat can be repositioned to create a smoother lower lid contour. This targeted approach smooths out puffiness, reduces under-eye bags, and lifts drooping eyelids, creating a more refreshed and youthful appearance. Advanced surgical techniques are employed to ensure precision and minimise scarring,

with incisions typically hidden within the natural contours of the eyelids.

Blepharoplasty is minimally invasive and often performed as a day case under local anaesthetic with sedation, ensuring patient comfort throughout the process. Recovery is generally smooth, with most patients resuming normal activities within 7 to 10 days and experiencing further refinement as any swelling subsides.

With its ability to enhance both appearance and function, blepharoplasty is a **highly effective solution** for those seeking to address the visible signs of ageing or eyelid-related concerns.

What do I need to do to PREPARE FOR TREATMENT?

You will need to:

- **Sign your consent form:** This can be completed electronically via the surgery pack sent to you through DocuSign at the time of booking. It also includes an explanation of your aftercare plan.
- **Bring sunglasses:** These will help protect your eyes and keep them comfortable on your journey home.
- **Avoid eye makeup:** Do not wear any eye makeup on the day of your treatment.
- **Remove contact lenses** before arrival for your procedure.
- **Stop using Retinols or dermabrasives** and do not smoke for 6 weeks before surgery
- **Plan your journey home:** Arrange for someone to accompany you or pick you up after the procedure. Alternatively, we can organise a taxi to take you home safely and comfortably.
- **Download our free dropAdrop reminder app** from the App Store or Google Play. The app sends you notifications to make sure you never miss a drop of your essential aftercare drops.

What happens on THE SURGERY DAY?

- You can expect to be at the clinic for **up to four hours**.
- **Arrival and consent:** Upon your arrival, we will welcome you to the clinic and confirm that you have signed the consent form.
- **Pre-surgery consultation:** You will have a consultation before the procedure, during which we will explain the treatment in detail and answer any questions you may have.
- **Aftercare discussion:** A nurse will guide you through the aftercare process, explaining how to care for your eyes immediately after surgery and in the days that follow. You will receive your aftercare drops, along with clear instructions on their usage to promote optimal recovery and healing. Additionally, we will inform you about **follow-up appointment**.
- **Surgeon's check:** Your surgeon will examine your eyes both prior to and immediately after the procedure to ensure everything is in order.
- **The procedure:** The surgery is carried out in the operating room and may take up to 2 hours in total, depending on whether both eyes and the upper and lower eyelids are being treated during the same session.
- **Post-surgery relaxation:** After the procedure, you'll rest in the relaxation suite for around 40 minutes.
- **Final check:** Before you leave, we will ensure everything is as it should be and send you home with your sunglasses on.
- **Returning to work:** While you may feel well enough to return to work the next day, we recommend taking it easy and having a light 7-10 days to allow for proper recovery.

Considering Blepharoplasty Surgery?
Here is some guidance that will answer some of your questions.

NOTE: Timings may vary depending on your individual circumstances,
please check with your surgeon.

After 24 hours

to 4 hours

PATIENT TESTIMONIALS

“ I recently underwent eyelid surgery at OCL Vision and felt confident and well cared for throughout the entire process.

From the initial consultation to the final follow-up, the team provided professional, friendly, and reassuring support, always taking the time to answer my questions. I'm delighted with the results and **couldn't be happier with the care I received.**”

Rosemary

“ I'm delighted with the results of my upper and lower eyelid surgery at OCL Vision.

After extensive research, I'm so glad I chose their team. The attention to detail was incredible, and **the outcome is natural yet transformative** - I look years younger without it being obvious I've had cosmetic surgery.

The personalised care and advice made all the difference, and I couldn't recommend them more highly!”

Christopher

“

I'm thrilled with the results of my eyelid surgery at OCL Vision.

After years of dealing with droopy lids, this was something I always wanted to address. The procedure was virtually painless, and the recovery was smooth and comfortable.

I'm so happy with the outcome and have already recommended OCL Vision to my friends!
